# About Our Company

## A Brief Story About The Company

This profile concerns the operation of Pisgah Transport Limited. Prior to the registration of Pisgah Transport Limited on 21st May 2019, Pisgah Limited was established in 14th April 2009. Pisgah Limited was operating as a small retail outlet in the Poroma, Southern Highlands Province for six months until it ventured into parchment coffee buying and selling of diesel fuel on five liter containers beginning April 2009. From humble beginning, the company grew from strength to strength increasing in revenue.

In September 16th 2009, Pisgah Limited opened up its first retail outlet and a mini wholesale in Tari, Hela Province, host of PNG's first LNG. Pisgah Limited began operations in the newly established store and started increasing in its revenue. In 2010, the company bought its first truck to save cost from hiring other trucks which has been a costly exercise. Whilst operating, two more trucks were bought respectively in 2011 and 2013. In 2013, a twin steer (18 ton capacity truck) was purchased.

It began with a single truck, a powerful vision, and the daunting challenge of the Highlands Highway. This rugged, winding ribbon of earth is the lifeline of Papua New Guinea, and it was here that Pisgah Transport Limited first planted its flag. Our mission was simple, yet profound: to become the most reliable partner for businesses moving essential goods into the heart of the Highlands.

The early days were a testament to grit and determination. Every journey was a lesson in resilience, navigating not just the treacherous roads, but also the complex needs of our clients. We learned quickly that our success was not measured in kilometers alone, but in the trust we built with every delivery secured, every timeline honored.

# About Our Company

## A Brief Story About The Company

That unwavering customer-oriented focus became our compass. We listened, we adapted, and we invested. Behind our growing fleet was a strong management team whose strategic vision and operational expertise ensured that our growth was as steady and reliable as our service. From a solitary vehicle, our fleet expanded, truck by truck, fueled by the loyalty of our clients and the dedication of our team. Today, we are proud to command a formidable fleet of 20 modern trucks, each a symbol of our commitment and a mobile promise to the people of PNG.

But our story of growth doesn't end at the road's edge. We recognized that our clients' needs extended beyond the tire tracks of our trucks. They faced challenges in ports, in customs halls, and in coordinating the complex dance of international freight.

In 2025, we proudly turned a new page. Building on over a decade of trusted service, Pisgah Transport is now venturing into Customs Clearance and Freight Logistics. This strategic expansion is a direct response to your needs. We heard your call for a seamless, end-to-end solution—a way to reduce the bottlenecks and hiccups that can slow progress.

Now, we offer more than just cartage; we offer certainty. From the moment your shipment arrives in the country to the final delivery at your door in the Highlands, Pisgah Transport provides a single, streamlined, and reliable package. We are your all-in-one partner, eliminating complexity and ensuring your supply chain flows as smoothly as the traffic on an open highway.

From a single truck to a comprehensive logistics solution, the Pisgah journey has always been about one thing: forging pathways and delivering trust.

# Our Mission Statement

## Purpose

The purpose of this profile is to get the Government, Non-Government Organization, the Private, possible stakeholders, business partners and the general public to be aware of the existence of Pisgah Transport Limited. The company is 100% PNG owned and operated and is based in Mendi, Southern Highlands Province and Lae, Morobe Province.

## Aims & Objective

The main aim of Pisgah Transport Limited is to give equal opportunities and rights to the local citizens to participate in any employment opportunities that can be provided by the company. Furthermore, the company focuses on allowing spending the cash back in the society to encourage the cash flow in the society. Pisgah Transport Limited aims to be the leading local business giving back to the society in terms of employment, contribute towards local community developments, HIV AIDS awareness and to say no to other social related issues.

## Mission

Our mission is to be Papua New Guinea's best and most effective, efficient and competitive logistics and management service provider and facilitator.

## Strategy

Pisgah Transport Limited aims to meet customer demands and expectations by providing the best, most personalized and empathetic approach means necessary. We truly believe in strong communication skills in ensuring full satisfaction of our customers' needs and wants.
